Advisory Action Before the Filing of an Appeal Brief

Application No.	Applicant(s)
10/697,271	NEWNS, DENNIS M.
Examiner	Art Unit
GARY D. HARRIS	1794

The MAILING DATE of this communication appears or	the cover sheet with the correspondence address
THE REPLY FILED <u>21 May 2008</u> FAILS TO PLACE THIS APPLICAT	ION IN CONDITION FOR ALLOWANCE.
	: (1) an amendment, affidavit, or other evidence, which places the h appeal fee) in compliance with 37 CFR 41.31; or (3) a Request
 a) The period for reply expiresmonths from the mailing date of b) The period for reply expires on: (1) the mailing date of this Advisory no event, however, will the statutory period for reply expire later that 	Action, or (2) the date set forth in the final rejection, whichever is later. In n SIX MONTHS from the mailing date of the final rejection. LY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO the the petition under 37 CFR 1.136(a) and the appropriate extension fee and the corresponding amount of the fee. The appropriate extension fee and statutory period for reply originally set in the final Office action; or (2) as
NOTICE OF APPEAL	
 The Notice of Appeal was filed on A brief in compliance filing the Notice of Appeal (37 CFR 41.37(a)), or any extension to Notice of Appeal has been filed, any reply must be filed within the AMENDMENTS 	hereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a
3. The proposed amendment(s) filed after a final rejection, but price (a) They raise new issues that would require further considera (b) They raise the issue of new matter (see NOTE below); (c) They are not deemed to place the application in better form	ation and/or search (see NOTE below);
appeal; and/or (d) They present additional claims without canceling a corresponding NOTE: (See 37 CFR 1.116 and 41.33(a)).	
4. The amendments are not in compliance with 37 CFR 1.121. See	e attached Notice of Non-Compliant Amendment (PTOL-324).
5. Applicant's reply has overcome the following rejection(s):	-
 Newly proposed or amended claim(s) would be allowable non-allowable claim(s). 	e if submitted in a separate, timely filed amendment canceling the
7. For purposes of appeal, the proposed amendment(s): a) will how the new or amended claims would be rejected is provided be The status of the claim(s) is (or will be) as follows: Claim(s) allowed: Claim(s) objected to: Claim(s) rejected: 1-9 and 16-20. Claim(s) withdrawn from consideration: 10-15.	
AFFIDAVIT OR OTHER EVIDENCE	
 The affidavit or other evidence filed after a final action, but befor because applicant failed to provide a showing of good and suffic was not earlier presented. See 37 CFR 1.116(e). 	e or on the date of filing a Notice of Appeal will <u>not</u> be entered ient reasons why the affidavit or other evidence is necessary and
9. The affidavit or other evidence filed after the date of filing a Notice entered because the affidavit or other evidence failed to overcor showing a good and sufficient reasons why it is necessary and we have a sufficient reasons.	ne <u>all</u> rejections under appeal and/or appellant fails to provide a
10. The affidavit or other evidence is entered. An explanation of the	e status of the claims after entry is below or attached.
REQUEST FOR RECONSIDERATION/OTHER 11. The request for reconsideration has been considered but does See continuation sheet.	NOT place the application in condition for allowance because:
12. Note the attached Information <i>Disclosure Statement</i> (s). (PTO/S 13. Other:	SB/08) Paper No(s)

Continuation of 11. Applicant argues that Ramesh et al. US 6,642,539 does not disclose a metallic underlayer, ferroelectric data layer and over layer having a faster charge migration than the ferroelectic data layer. Applicant's argues that examiner has not shown inherent relationship regarding charge migration. According to applicant's specification the charge migration layer is a "good conductor". Examiner interprets the Ramesh '539 layer that includes a perovskite (similar to applicant) (See Table 4, (Col. 14, 15, Line 35-67, 1-15 respectively)) to be a "good conductor". Additionally, applicant argues that applicant has solfved depolarazation problem due to bulk loss in the FE film. However, this is not claimed. Additionally applicant has requested that examiner provide an example to illustrate layered structure. This can be found in Table 4 (Col. 14, Line 39-45) which would be consistent with applicants doperd perovskite, PZT, and SrRuO3 layered structure. Applicant argues that invention relates to much higher density technology, however this is not claimed. Applicant argues that broadly written claim 1 & 16 using comprising language must be consistent with the discription in the disclosure. Ramesh broadly claims the materials similar to applicant that are well known in the art. He does not disclose a charge migration rate which examiner has interpreted as an inherent property of the layered structure.
